South Carolina State Library
Fiscal Year 1994
Title I, Project IA.
General Administration

The purpose of this project is to administer the Library Services and Construction Act in South Carolina efficiently, economically, and effectively in order to fulfill the goals and objectives of the long-range and annual program. As the chief instrument for the planning and implementation of the total LSCA program, the General Administration Project is directed toward the realization of the basic continuing goal of the program which "is to assure that comprehensive library services and resources are provided for the people of South Carolina and that every individual has adequate and timely access to library and information resources."

The project provides for the statewide planning and evaluation of library services and for administrative activities required for compliance with the provisions of the Library Services and Construction Act, Regulations, and EDGAR. Major activities include, but are not limited to:

1. preparation and publication of:
 - a. the Basic State Plan
 - b. the Long-Range State Program for Library Development
 - c. the Annual Program
2. evaluating, monitoring, and reporting of LSCA programs
3. activities of the LSCA Advisory Council
4. management of budget and records
5. dissemination of information concerning LSCA programs
6. staff participation in LSCA training programs convened by the U.S. Department of Education
7. negotiation of indirect cost rate
8. requirements of Single Audit Act

State funds will cover most staff costs, including salaries of professional and secretarial personnel attributable to the activities of the project. LSCA will be used to cover costs of equipment, supplies, printing, travel, communication, and contractual services attributable to the project. Administrative costs for the implementation of Title II will be charged to this project. Indirect costs claimed by the State are also attributable to General Administration.

South Carolina State Library
Fiscal Year 1994
Title I, Project IA.
General Administration

The success of the project will be measured by:

1. approval by the State Library Board and LSCA Advisory Council of long-range plan and annual program
2. approval by Governor's Office (Grant Services) and the Joint Appropriations Review Committee of long-range plan and annual program
3. acceptance of the Basic State Plan, State Plan for Library Development, Annual Program, and annual reports by the U.S. Department of Education
4. the extent to which LSCA funds are allocated, obligated, and expended for approved purposes within the established time frame
5. the successful implementation of individual projects set up under the Annual Program
6. the replacement of federal funds with local funds in projects established by LSCA grants
7. the replacement of federal funds with state funds where appropriate

In the administration of LSCA funds the State Library will encourage libraries to develop projects consistent with the National Education Goals as outlined in America 2000 An Education Strategy. As the nation focuses on this document and the needs of quality education for all, perhaps by promoting libraries' unique contributions to education funding authorities will come to realize the true value of libraries.

In FY 93 administrative and consultant staff attended both Evaluating Library Services institutes conducted by the University of Wisconsin - CLIS for the U.S. Department of Education. In the course of the year, techniques presented at these institutes will be incorporated into evaluation processes.

5. PROVIDE AN ABSTRACT OF THE PROJECT AND HOW THE PROJECT RELATES TO THE LONG-RANGE PROGRAM. (SECS. 103 OR 303)

I. Objectives

The purpose of the Library Interpretation Project is to disseminate information concerning library service to the government and the public and to promote a climate of public opinion favorable to library development. It attempts to increase public understanding of library programs and awareness of services provided, thus increasing the use of the library by individuals and groups in the community. This project strengthens the State Library in order to meet the library needs of the inadequately served.

The project has eight objectives:

- A. To more fully inform the general public about the existing public and state institutional library services and to encourage greater use of these library services by more and more people.
- B. To promote a climate of public opinion and awareness favorable to library development, expansion, and improvement.
- C. To reach the non-library user plus specific groups such as visually and physically handicapped, parents, urban and rural disadvantaged, the illiterate, the elderly, and non-English speaking peoples with information about available library service.
- D. To support a program of interlibrary cooperation which will assure a more efficient utilization of all library resources in the state, to increase awareness of the necessity of resource sharing, and to promote support for the South Carolina Library Network.
- E. To support programs of other agencies and organizations which will strengthen "the reading and learning experience" and offer the state's citizens continuing education, occupational, and informational opportunities through library resources.
- F. To create awareness in and offer guidance toward sound county-level public relations programs for librarians, their staffs, their board members and "Friends" groups.
- G. To support and publicize state and federal grant programs and special projects administered by the State Library.
- H. To acquire library equipment to support the improvement of library service.

II. Relationship To Long-Range Program

The project supports Objective 1 of Goal I of the Long-Range Program:

"To enhance the administrative, planning, and support capabilities required for statewide library development."

III. Activities To Be Used To Meet Objectives and Needs

The State Library will continue to conduct a vigorous campaign to promote the use of libraries. The State Library employs a Public Information Specialist who works closely with a staff public relations committee chaired by the Public Information Specialist. Publicity will be developed for all major State Library programs, for each LSCA project, and for appropriate public and institutional library activities. Specific activities will include: (1) news releases, (2) feature articles, (3) broadcast announcements, (4) interviews, (5) folders, brochures, and booklists, (6) exhibits, signs, posters, displays, and presentations, and (7) special printed materials. All appropriate media will be utilized, including (1) newspapers, (2) radio, (3) television, (4) professional and corporate house organ publications, (5) national and regional media, and (6) statewide and regional meetings. Equipment needed to support the project will be acquired as necessary. No statistical projections can be made on the amount of publicity, which will be determined by the number and type of activities funded. Other activities may involve funding of LSCA projects which promote the use of libraries.

The State Library will develop techniques to assist with local libraries in marketing of library services. Development of a generic public library brochure will be done in cooperation with the Association of Public Library Administrators.

The PIS will edit State Library publications and will assist in the design and layout of other promotional pieces. Due to new state printing regulations, newsletters for adult and children's services were discontinued in FY 93.

The State Library will sponsor Read-In IV held at the State House to promote reading. Approximately 1,000 students, teachers, parents, and librarians from across the state will participate in this event which includes a parade from the State Library to the State House. After several short presentations, the group will disperse into small groups to read to each other on the grounds of the State House.

IV. Key Libraries And Other Libraries Involved

The South Carolina State Library and other libraries in South Carolina.

V. Method Of Evaluation

There can be no clear-cut cause/effect relationship between the amount of publicity library services receive and the number of people holding a library card or otherwise using public libraries. What can be measured is the number of releases prepared, number of times media use these releases, number of interviews given, etc. It is not possible to measure the attitude of the public vis-a-vis such publicity. Likewise it is difficult to determine if additional funding is the result of one particular event or the result of a carefully planned year-round effort to promote libraries. In an effort to strengthen libraries the State Library will endeavor to promote library services as vigorously as possible. This project will be monitored throughout the year and evaluated by the State Library staff in terms of the extent to which the objectives have been carried out and the degree to which state and LSCA programs have been supported by the project.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIA.
Strengthening Support Services

I. Objectives

The purpose of this project is to provide for central support services to meet the needs of libraries in the state. This project strengthens the State Library in order to meet the library needs of the inadequately served. Specific objectives are:

- A. To administer the state program, with a state budget for matching purposes of some \$3,498,360.
- B. To provide the personnel, space, and supporting services required to implement the program.
- C. To fulfill state regulations governing personnel administration, fiscal management including budgeting, accounting, reporting, auditing and procurement.
- D. To acquire library equipment to support the improvement of library service.

II. Relationship To Long-Range Program

The Strengthening Support Services Project supports Goal I:

"To strengthen the State Library Agency for the purpose of providing statewide library leadership and services."

III. Activities To Be Used To Meet Objectives And Needs

Activities will include, but not be limited to:

- A. Fiscal operations - budgeting, accounting, reporting, auditing
- B. Personnel administration - recruiting, orienting, training, supervising, evaluating
- C. Funding for telecommunications, office equipment, computer software, and other support services necessary to maintain a professional working relationship with other libraries.

IV. Key Libraries And Other Libraries Involved

South Carolina State Library

V. Method Of Evaluation

The operations of the State Library are monitored continuously by the Director, Deputy Director, and Director of Administrative Services. All LSCA project staff make monthly reports on activities. Regular reviews by department heads, made quarterly or more often if needed, measure progress and evaluate activities. Monthly reports are made to the Library Board by the Director, and the Advisory Council meets semiannually to receive progress reports.

The success of the Strengthening Support Services Project is directly reflected by the success or failure of the individual programs conducted by the State Library, the cooperation of South Carolina libraries, and public response to library programs.

This activity covers state salaries of staff performing duties under other LSCA projects. Their performance will be evaluated under those projects. Temporary staff needed to support LSCA activities will also be funded under this project .

The State Library convened three focus group interview sessions with public library directors in July 1993 to receive input on future directions of State Library programs. The State Library will evaluate its programs, services, and staffing requirements which will have an impact on the administration of the LSCA program in South Carolina.

Strengthening Collection Development

I. Objectives

- A. To strengthen the resources of the State Library.
- B. To supplement and reinforce the resources of libraries throughout the state.
- C. To enhance public library access to the South Carolina Library Network.
- D. To acquire library equipment to assist in acquiring and processing materials.

II. Relationship To Long-Range Program

The Strengthening Collection Development Project supports Goal I of the Long-Range Program:

"To strengthen the State Library Agency for the purpose of providing statewide library leadership and services".

III. Activities To Be Used To Meet Objectives And Needs

Activities will include, but not be limited to, the following:

- 1. Select, acquire, process and catalog 8,000 books, 7,500 state and federal documents, 2,600 periodical subscriptions, 700 reels of microfilm, 21,000 microfiche, plus 200 non-book titles in film, video, and sound recording formats.
- 2. Maintain a collection of 256,000 books, 307,000 documents, 478,000 microfiche, 4,200 audiovisual materials, plus periodicals, microfilm, etc.
- 3. Maintain the database of all State Library holdings and other holdings added to the State Library's database.
- 4. Provide funds to enhance public library access to the South Carolina Library Network.
- 5. Provide funds for support staff in the technical services department.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIB.
Strengthening the State Library Agency

IV. Key Libraries And Other Libraries Involved

The South Carolina State Library and other libraries of South Carolina.

V. Method Of Evaluation

The project will be monitored daily by the Director of Technical Services, with monthly progress reports on orders, acquisitions, and expenditures. The success of the project will be measured by the percentage of the budgeted funds that are expended for the purpose allocated within the fiscal year and by the number of items made available to the public as projected in Item III. The value of the project is demonstrated by the use made of the Interlibrary Loan collection (see Title III Program).

Until such time as adequate state funding for materials is available LSCA will be used to develop the State Library's materials collections. The FY 94 state budget provides \$145,000 for materials. Budget reductions in recent years have forced the State Library to examine its selection practices. As a result, fewer monograph titles are being purchased, and some serial titles have been discontinued because of greater access to on-line products. Despite these reductions, the number of titles added in recent years continues to grow due to the acquisition of books for the Last Copy Fiction Collection. The Last Copy Fiction Collection is a cooperative effort of the State Library and public libraries whereby local libraries as they weed their collections submit last copies of fiction titles for storage at the State Library.

5. PROVIDE AN ABSTRACT OF THE PROJECT AND HOW THE PROJECT RELATES TO THE LONG-RANGE PROGRAM. (SECS. 103 OR 303)

I. Objectives

The purpose of this project is to extend and improve public library service throughout the state and to implement the State Plan at the local level. Specific objectives of the project are:

- A. To interpret the South Carolina State Library's strategic plan.
- B. To improve existing library services in all counties and regions by means of advice and assistance to public librarians and library boards.
- C. To plan and develop improved public library services in areas having inadequate service through special projects such as pilot or demonstration projects.
- D. To create an understanding of public library service and its objectives by educating trustees, local government officials, and citizens as to what good library service is and to encourage active support and promotion of libraries by trustees, Friends of the Library organizations, and other groups.
- E. To obtain strong public support for South Carolina's program of library service on a local and statewide basis in order to secure increased financial support from local and state sources.
- F. To promote implementation of the State Program for Library Development (long-range plan).
- G. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The Field Services Project supports Goal II of the Long-Range Program:

"To expand and improve public library services throughout the state, providing access for every resident, so as to further the educational, vocational, economic, and cultural enrichment of all citizens"; and

Objective 3 of Goal I:

"To provide consultant services for public, institutional and other libraries of South Carolina."

III. Activities To Be Used To Meet Objectives And Needs

Library Development staff, assisted by other State Library staff when appropriate, will serve as consultants to the public libraries in order to aid them in delivering improved library services. Examples of activities include:

- Acting as liaison between the State Library and librarians. Particular emphasis will be given to working with inexperienced and untrained librarians. It is expected that there will be at least two new administrators to orient. Contact will be provided by site visits, correspondence, telephone calls, and other means of communication.
- Representing the State Library at local board meetings. At least one board meeting per year will be attended by a member of the State Library staff.
- Meeting with local organizations and community leaders to provide information concerning public library service.
- Assisting public librarians with the expenditure of \$3,498,360 in State Aid funds.
- Providing "mini-grants" when it is more economical and efficient to centralize orders, distributions, and payments for equipment or services from the State Library.
- Assisting libraries with implementing long-range planning. The Public Library Association's Planning Process will be used when appropriate.
- Assisting professional organizations by encouraging trustees, librarians, and staff members to join and participate in the activities of the associations.*
- Employing an Administrative Specialist to provide clerical support for the Library Development Staff.
- Providing support services such as travel, equipment, printing, supplies, etc.
- Compiling and publishing of statewide library statistics.

IV. Key Libraries And Other Libraries Involved

The key libraries involved in the project will be the South Carolina State Library and the 39 county and regional library systems.

*No state or federal funds proposed for this project will be expended for this purpose.

V. Method Of Evaluation

The Library Development Staff, who will be responsible for implementing this project, will report to the Director of Library Development on all activities in their assigned counties by means of (1) written field reports, (2) monthly reports, (3) staff meetings and (4) annual LSCA project reports -- and by special conferences as needed. On-site observation of projects will be made by Library Development Staff as they make field trips to their assigned counties during the year and/or by the project supervisor.

The following will be used to demonstrate the overall success or failure of the project:

- Number of contacts made by State Library staff during the year.
- Number of public library board meetings attended.
- Number of new administrators provided orientation.
- Number of times the State Library staff represented the State Library at local, state, and national conferences, conventions, workshops, professional associations, building dedications, civic organizations, and other state and local agencies.
- Number of instances in which the State Library staff provided assistance to public library staff.
- Publication of public library statistical summary.
- Number of public libraries involved in planning process.
- Number of "mini grants" administered.

Career Education

I. Objectives

- A. To improve library service through training of public library, institutional library, and State Library personnel at all levels and to provide for better informed public library trustees.
- B. To provide for State Library sponsored workshops to meet specific needs.
- C. To support a comprehensive continuing education program for South Carolina library personnel through cooperation with the USC College of Library and Information Science, the South Carolina Library Association, and other professional groups.
- D. To encourage graduates of the USC/CLIS to accept employment in South Carolina libraries through meaningful work-study experience in state/public library service.
- E. To acquire library equipment to improve library service.

II. Relationship to Long-Range Program

The Career Education Project supports Objective 4 of Goal I of the Long-Range Program:

"To centralize at the State level programs and functions which cannot be handled economically or effectively by individual libraries."

III. Activities To Be Used To Meet Objectives And Needs

Activities will include the following:

- 1. Notification of continuing education opportunities will be published in News for South Carolina Libraries, on the State Library's Electronic Bulletin Board Service and in an annual calendar of continuing education activities.
- 2. Information on conferences and seminars will be distributed to public libraries. Libraries may apply for assistance for their personnel to attend conferences or workshops in areas related to purposes of LSCA which would be of benefit to them and their library systems.
- 3. Grants will be offered to library staff members and trustees for courses, workshops, conferences, seminars, and other learning opportunities in areas related to purposes of LSCA. Non-professional personnel may receive grants for workshops, undergraduate academic courses in librarianship, or up to twelve hours of graduate credit in library science (only 6 hours may be funded after admission to graduate library school) if the courses support job assignments. For professional librarians and trustees, grants may be awarded for any continuing education activity which will contribute to improved job performance.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIB.
Career Education

4. The State Library will cooperate with the USC College of Library and Information Science and professional organizations in planning, implementing, and/or financing continuing education programs of general interest to public and institutional librarians and library trustees.
5. The State Library will work with a committee of the Association of Public Library Administrators to identify long-range continuing education needs of public libraries.
6. Through a contractual agreement with USC/CLIS, one or more graduate library students may be provided work-study experience at the State Library or in a public library in order to introduce the student to library service opportunities in South Carolina.

IV. Key Libraries And Other Libraries Involved

The South Carolina State Library and all public and institutional libraries in the state.

V. Method Of Evaluation

The project will be monitored by the Library Development Staff. Public libraries which employ individuals receiving grants must meet all requirements for State Aid. All grant recipients will submit a written evaluation report on the information acquired to the State Library, which may request an oral report be given to the Association of Public Library Administrators and/or other appropriate professional groups. The project will also be evaluated on:

- (1) The successful implementation of the workshop and/or travel program.
- (2) The subsequent improvement in library service as measured by administrators' assessment of staff performance or by general observation.
- (3) The number of people receiving continuing education under this project.
- (4) The number of continuing education opportunities made available under this project.

FY 1994 CARRYFORWARD FUNDS TO FY 1995	0			0

5. PROVIDE AN ABSTRACT OF THE PROJECT AND HOW THE PROJECT RELATES TO THE LONG-RANGE PROGRAM. (SECS. 103 OR 303)

I. Objectives

The purpose of this project is to extend and improve library service to the disadvantaged segment of the population not heretofore reached, or previously given very limited service. Specific objectives are:

- A. To plan, develop or expand programs of service for the disadvantaged with emphasis upon innovative activities.
- B. To promote mutual interagency planning and implementation of programs serving the disadvantaged.
- C. To assist county library systems to develop minimum levels of service and financial support prerequisite for serving the disadvantaged.
- D. To provide adequate access to library service for the disadvantaged in rural and other isolated areas by strengthening and expanding library extension programs.
- E. To provide library equipment to improve public library service.

II. Relationship To Long-Range Program

The Service to the Disadvantaged Project supports Objective 3 of Goal II of the Long-Range Program:

"To extend public library service to special constituencies, including the disadvantaged, children, the elderly, the illiterate, the unserved, and persons of limited English-speaking ability."

III. Activities To Be Used To Meet Objectives And Needs

Activities will include:

- A. Planning, gaining support for, and implementing projects to assist county library systems in developing minimum levels of service and financial support prerequisite for serving the disadvantaged, including personnel, materials and equipment.
- B. Planning, gaining support for, and implementing projects in the areas of services to the rural disadvantaged.
- C. Conferences with representatives of other state and local agencies serving the disadvantaged to exchange information and coordinate activities.
- D. Collecting and disseminating information from state and national programs and organizations.
- E. Developing bookmobile service. Libraries will work towards upgrading bookmobile service, one of the prime means of delivering library service to South Carolina's disadvantaged population.

IV. Key Libraries And Other Libraries Involved

The following county and regional libraries are eligible to apply for sub-grants from the South Carolina State Library based on poverty level as determined by the 1990 census. Priority will be in this order:

1. Counties with over 25% disadvantaged population.
2. Counties with over 15% disadvantaged population.
3. Counties with over 20,000 disadvantaged but under 25% disadvantaged population.

NOTE: Where counties do not meet the above criteria, grants will be considered to serve the disadvantaged in specific communities which will meet the criteria listed above.

V. Method Of Evaluation

Progress of local projects will be observed by the Library Development staff by means of field trips and consultation with local librarians. Grant recipients will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The following criteria will be used to evaluate this project:

1. The number of disadvantaged reached.
2. The percentage of the target group reached.
3. The methods used by libraries to make their services accessible to the disadvantaged.
4. The suitability of materials selected for the program.
5. The staff involvement in the program; including general knowledge of the program, attitude toward the program and special training and preparation.
6. The involvement of groups and agencies within the community already working with the disadvantaged.
7. Comparison of project with similar projects in other states.
8. Suitability of project for replication by other libraries.
9. The methods used to publicize the project. All publicity must cite LSCA funding administered by the South Carolina State Library as a source of funding.

Fiscal Year 1994
Title I, Project IIIE.
Library Development

I. Objectives

The purpose of the Library Development Project is to strengthen and improve the state's total public library program by enabling individual library systems to improve or extend services in areas of demonstrated need. Specific objectives are:

- A. To insure an adequate level of service throughout the entire service area through the improvement of headquarters, branches, and bookmobile service. Adequacy will be measured using Standards For South Carolina Public Libraries, 1986 revision.
- B. To provide staff adequate in numbers and training to meet the varied and changing demands of service. Adequacy will be measured using Standards For South Carolina Public Libraries.
- C. To provide library collections (in number, quality, and diversity) to meet the information needs of the library public. Adequacy will be measured using both Standards For South Carolina Libraries and the State Library standard of two books per capita.
- D. To provide library equipment (such as copiers, microfilm readers, AV, etc.) to improve public library service.
- E. To extend public library services to specific population groups. This may be undertaken separately or in conjunction with Title I, Projects III-D, III-I, III-J, or III-F.
- F. To enable public library systems to investigate the possibilities of automation and when ready to meet the initial costs of implementing automated acquisitions, cataloging, or circulation services. This may be undertaken separately or in conjunction with Title I, Project IIIE or Title III, whichever is more appropriate.
- G. To enable public library systems to engage in long-range planning activities, such as needs assessments, identifying resources required and evaluating activities and programs. ALA's Planning Process is a possible vehicle for such planning. This may be undertaken separately or in conjunction with Title I, Project IIIA.
- H. To assist public libraries in providing and displaying educational materials, and conducting community-wide programs, aimed at preventing and eliminating drug abuse, in cooperation with local education agencies or other agencies or organizations.
- I. To assist public libraries in serving as community information and referral centers.
- J. To assist public libraries develop programs to market library services.

II. Relationship To Long-Range Program

The Library Development Project supports Goal II of the Long-Range Program:

"To expand and improve public library services throughout the state, providing access for every resident, so as to further the educational, vocational, economic, and cultural enrichment of all citizens."

III. Activities To Be Used To Meet Objectives and Needs

Activities will involve the planning for and funding of the projects of the participating libraries. Subgrants of ten cents per capita will be made on the basis of population served -- provided that no grant shall exceed \$20,000 nor be less than \$2,500.

Local projects may include but not be limited to the following activities:

- A. Strengthening existing public library programs such as adult services, services to children, reference service, bookmobile and branch library services.
 - 1. By adding trained personnel.
 - 2. By adding resources to support these programs.
- B. Extending service to specific population groups by a variety of outreach methods.
 - 1. Bookmobile programs.
 - 2. Deposit collections in agencies, organizations, or institutions used by these groups.
 - 3. Innovative and/or experimental programs for those in nursing homes, adult education groups, day care centers, those in business and industry, etc.
- C. Expanding or improving the resources of libraries.
 - 1. By purchasing library materials in all formats.
 - 2. By preserving library materials to include rebinding.
 - 3. By purchasing AV materials and other non-print media collections.
 - 4. By providing access to on-line database services.
 - 5. By purchasing or leasing of library equipment.
 - 6. By encouraging the development of information and referral programs.
- D. Planning and/or implementing automation activities.
- E. Developing plans to market public library services.

IV. Key Libraries And Other Libraries Involved

In order to qualify for a Project IIIE grant a public library must first qualify for State Aid by meeting state regulations, employ a professionally trained librarian, and meet minimum per capita local support for participation in this LSCA grant program. Per capita support for FY 94 must be \$5.06 or greater. Libraries not qualifying will be targeted for Service to the Disadvantaged grants.

V. Method Of Evaluation

Proposals for grants-in-aid under this project will be evaluated and approved on the basis of the following criteria: relationship to project goals, feasibility, population served, replicability, local management capacity, need, and evidence of continued local support. Progress of local projects will be observed by the Library Development Staff by means of field trips, and consultations with local librarians. Grant recipients will help evaluate the program in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The following criteria will be used to evaluate this project:

1. The percentage of the target group reached.
2. Number of library materials added to collections, number of trained personnel added to library staff, or number of new programs initiated.
3. Number of public libraries developing marketing plans.
4. Suitability of project for replication by other libraries.
5. The method(s) of publicizing the project. All publicity must cite LSCA funding administered by the State Library as a source of funding.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIF.
Service to Children

I. Objectives

The purpose of this project is to improve the quality, extent, and scope of library service to children throughout the state. Specific objectives of the project are:

- A. To provide guidance and assistance to public libraries in the development and provision of library service to children.
- B. To promote cooperation* among all types of libraries serving children and to coordinate activities with other agencies concerned with the welfare of children and youth.
- C. To develop in library staff, governing bodies, and the community an understanding of the scope of public library service to children and youth and an appreciation of its potential role in their educational and social development.
- D. To assist libraries in providing mobile library services and programs to child-care providers or child-care centers which are licensed or certified by the state, or otherwise meet the requirements of state law.
- E. To develop programs in support of reading.
- F. To assist libraries in developing and providing intergenerational programming.
- G. To enable individual libraries to extend library services to specific population groups of children.
- H. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The Service to Children Project supports Objectives 3 and 4 of Goal I:

"To provide consultant services for public, institutional,** and other libraries of South Carolina" and

"To centralize at the state level programs and functions which cannot be handled economically or effectively by individual libraries."

III. Activities To Be Used To Meet Objectives And Needs

The project enables the State Library to support the work of the Children's Services Consultant who will:

- A. Work with library administrators and children's librarians in planning, developing, and upgrading children's services. The Children's Consultant will visit each of the 39 library systems at least once per year. Attention will be focused on orienting new staff, and on evaluating and improving collections of materials for children, on planning for outreach to unserved children and for

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIF.
Service to Children

meeting informational and recreational needs of children and those who work with them. An advisory committee of children's librarians and directors will meet at least 3 times a year to advise on priorities and programs.

- B. Develop continuing education programs for children's services personnel. A two-day workshop will be held in Spring 1994. The focus will be on on-line and computer resources for children.
- C. Coordinate a statewide summer reading program in FY 94, with the theme "Bone Up on Books."
- D. Assist the Adult Services Consultant with the selection and programming of children's audiovisual materials.
- E. Participate in the activities and programs of professional library and related organizations. Work with the South Carolina Library Association's Task Force on Guidelines for Service to Children in encouraging use of the guidelines for planning and evaluation of children's services in the state.
- F. Assist in the implementation of all LSCA projects involving service to children, including grants for personnel, materials, and equipment.
- G. Continue to promote the use of materials on early childhood education in the State Library's Media Collection.
- H. Coordinate South Carolina's observance of National Young Reader's Day.
- I. Cooperate with and collaborate in planning and publicizing statewide and regional storytelling events and other similar activities which promote sharing literature with children, focus attention on the importance of reading, and on broadening the awareness of the role of libraries.
- J. Promote use of the "Grow With Books" chart in a packet for new parents and assist libraries in developing and promoting this service.
- K. Assisting with funding of programs for children in local libraries featuring a theater or puppet theater group, authors, storytellers or similar literature related activities. These may be in conjunction with the statewide summer reading program or at a time such as Children's Book Week.
- L. Include information on youth services in the State Library's newsletter "News for SC Libraries."

IV. Key Libraries And Other Libraries Involved

The key libraries involved in the project will be the South Carolina State Library and all county and regional public library systems as well as libraries of state institutions

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIF.
Service to Children

serving children and young people. Promotional events may also include school libraries.

In order to qualify for a Project IIIF grant, a public library must first qualify for State Aid by meeting state regulations, employ a professionally trained librarian, and meet minimum per capita local support for participation in this LSCA grant program (\$5.06 per capita). The South Carolina State Library will award grants to qualifying libraries on a competitive basis.

V. Method Of Evaluation

Proposals for grants-in-aid under this project will be evaluated on the basis of the following criteria: relationship to project goals, feasibility, local management capability, need, and evidence of continued local support. Progress of local projects will be observed by the Library Development staff by means of field trips and consultations with local librarians. Grant recipients will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The following criteria will be used to evaluate this project:

1. Number of contacts made during the year
2. Number of projects and activities initiated
3. Number of workshops and training programs planned and carried out
4. Number of library staff members attending workshops and training programs
5. Use of materials on early childhood education in the State Library's Media Collection
6. Number of times the Children's Services Consultant represented the State Library at local, state, and national conferences, workshops, professional associations, civic organizations, or other state and local agencies
7. Number of children and libraries participating in the statewide summer reading club
8. Number of children and/or caregivers reached.
9. Suitability of project for replication by other libraries.
10. The methods of publicizing the project. All publicity must cite LSCA funding administered by the State Library as a source of funding.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIH.
Public Library Automation and Technology

I. Objectives

The purpose of the Public Library Automation and Technology Project is to allow public libraries to take advantage of the benefits of technological developments to better serve their patrons. Specific objectives are:

- A. To determine the feasibility of library automation projects.
- B. To test and evaluate hardware, software, and services provided by automation vendors and utilities to determine the systems best suited for libraries of various sizes and to provide library equipment to improve library service.
- C. To encourage adherence to standards in database development and communication protocols necessary to ensure compatibility with state and national planning and to make possible on-line communication among libraries.
- D. To encourage county support for technological enhancements of library services by providing incentive grants for feasibility studies, consultants, or start-up costs.
- E. To enhance public library access to South Carolina Library Network.

II. Relationship To Long-Range Program

The Public Library Automation and Technology Project supports Objective 2 of Goal II of the Long-Range Program:

"To provide incentive grants to public libraries for services and activities which support state and LSCA priorities, including personnel, collection development, and equipment."

III. Activities To Be Used To Meet Objectives And Needs

Activities will involve assisting in the implementation of LSCA projects funded under this category.

Local projects will include but not be limited to the following activities:

- A. Feasibility studies
- B. Consultant fees
- C. Information and Referral Services

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIH.
Public Library Automation and Technology

- D. Incentive grants for implementing projects to automate library activities such as circulation control, acquisitions, cataloging, serials control, newspaper indexing, business functions, etc. Funds will be available for feasibility studies, consultant fees, and/or actual implementation of automated activities.
- E. Funds will also be available to pay prorated charges for public libraries to access the South Carolina Library Network.

IV. Key Libraries And Other Libraries Involved

In order to qualify for a Project IIIH grant a public library must first qualify for State Aid by meeting state regulations, employ a professionally trained librarian, and meet minimum per capita local support for participation in this LSCA grant program (\$5.06 per capita). The South Carolina State Library will award grants to qualifying libraries on a competitive basis.

V. Method Of Evaluation

Proposals for grants-in-aid under this project will be evaluated and approved on the basis of the following criteria: relationship to project goals, feasibility, replicability, appropriateness of activity to level of library development, local management capability, need, and evidence of continued local support. Progress of local projects will be observed by the Library Development Staff by means of field trips and consultations with local librarians. Grant recipients will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

Results of all studies and evaluations will be made available to other libraries considering similar activities. Libraries receiving grants will agree to allow representatives of other libraries to observe and study projects on site.

All publicity for the project must cite LSCA funding administered by the State Library as a source of funding.

5. PROVIDE AN ABSTRACT OF THE PROJECT AND HOW THE PROJECT RELATES TO THE LONG-RANGE PROGRAM. (SECS. 103 OR 303)

I. Objectives

The purpose of this project is to develop, extend and improve library service to the illiterate and functionally illiterate segments of the population not heretofore reached, or previously given very limited service. Specific objectives are:

- A. To plan, develop, implement, and evaluate library literacy programs to combat the problem of illiteracy.
- B. To promote mutual cooperation between libraries and other state and local agencies serving the illiterate and functionally illiterate.
- C. To assist libraries in the establishment and support of model library literacy centers, to reduce the number of functionally illiterate individuals and to help them reach full employment.
- D. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The Literacy Project supports Objective 3 of Goal II of the Long- Range Program:

"To extend public library service to special constituencies, including the disadvantaged, children, the elderly, the illiterate, the unserved, and persons of limited English-speaking ability."

III. Activities To Be Used To Meet Objectives And Needs

Activities will include assisting in the implementation of LSCA projects funded under this category. Local projects will include but not be limited to the following activities:

- A. Provision of materials, reading guidance, programming, and library promotion to literacy students.
- B. Provision of materials, space, programming, equipment, and guidance to literacy tutors.
- C. Conducting or attending literacy-related meetings and conferences with library boards, administrators, and staff.
- D. Maintaining communication with the South Carolina Literacy Association, Governor's Initiative for Workforce Excellence, State Department of Education, and other groups working with literacy.

NOTE: Projects will be considered which provide public or institutional library services to the illiterate or functionally illiterate, or where the public library is an integral part of a cooperative community-based program. Funds will not be available for on-going expenses or operating an existing program.

IV. Key Libraries And Other Libraries Involved

The key libraries involved in the project will be the South Carolina State Library and all county and regional public library systems as well as libraries of state institutions. Priority will be based on the illiteracy rate of the county or region as determined by the 1990 census.

V. Method Of Evaluation

Progress of local projects will be observed by the Library Development staff by means of field trips and consultation with local librarians. Grant recipients will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The following criteria will be used to evaluate this project:

1. The number of illiterate and functionally illiterate reached.
2. The percentage of the target group reached.
3. The individual objectives established by each library.
4. The methods used by libraries to make their services accessible to the illiterate and functionally illiterate.
5. The suitability of materials selected for the program.
6. The staff involvement in the program; including general knowledge of the program, attitude toward the program and special training and preparation.
7. The involvement of groups and agencies within the community already working with the illiterate and functionally illiterate.
8. Suitability of project for replication by other libraries.
9. The methods of publicizing the project. All publicity must cite LSCA funding administered by the South Carolina State Library as a source of funding.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIJ.
Service to Adults

I. Objectives

The purpose of this project is to improve the quality, extent, and scope of library service to adults throughout the state. Specific objectives of the project are:

- A. To plan and develop library services for adults in counties or areas where such services have been underdeveloped and to extend such services to segments of the population who have received little or no services. This may include provision of trained personnel, outreach services, programming, books, materials and equipment.
- B. To test or demonstrate innovative programs and services for adults which may be replicated or adapted for use in other libraries of the state.
- C. To coordinate library activities and programs with those of other agencies providing programs and services for adults.
- D. To promote mutual cooperation between libraries and state and local agencies serving specific population groups of adults.
- E. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The Service to Adults Project supports Objective 3 of Goal II of the Long-Range Program:

"To extend public library service to special constituencies, including the disadvantaged, the elderly, the illiterate, the unserved, and persons of limited English-speaking ability."

III. Activities To Be Used To Meet Objectives And Needs

Activities will include:

- A. Developing a viable program of library services for adults, which will include workshops and outreach activities, using traditional and/or innovative techniques.
- B. Publishing information on adult services in the State Library's newsletter, "News for SC Libraries," including news about new audiovisual acquisitions and ideas for promoting their use.
- C. Assisting with the implementation of LSCA grant projects involving service to adults.
- D. Providing ready access to an information and referral service which would include current information on human services agencies serving older citizens. Also providing information and a referral service for speakers, reviewers, and other resource people available for programming for specific population groups of adults.

South Carolina State Library
Fiscal Year 1994
Title I, Project IIIJ.
Service to Adults

- E. Previewing and recommending for purchase video tapes and other audio visual materials deemed appropriate for adults.
- F. Assisting with funding of programs for adults in local libraries featuring speakers, authors, or similar literature related activities. This may be in conjunction with the "Let's Talk About It" project or other humanities programming.
- G. Maintaining contact with libraries throughout the state to assist in planning adult programs.
- H. Sponsoring a workshop for public and institutional libraries on service to the elderly.
- I. Meeting with the Adult Services Advisory Committee to advise on priorities and programs.
- J. Developing brochures and other promotional activities to encourage use of library programs and services by targeted audiences.

IV. Key Libraries And Other Libraries Involved

In order to qualify for a Project III-J grant, a public library must first qualify for State Aid by meeting state regulations, employ a professionally trained librarian and meet minimum per capita support for participation in this LSCA grant program (\$5.06 per capita). The South Carolina State Library will make grants to qualifying libraries on a competitive basis.

V. Method Of Evaluation

Progress of local projects will be observed by the Library Development Staff by means of field trips and consultation with local librarians. Grant recipients will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The following criteria will be used to evaluate this project:

1. The number of adults reached.
2. The number of elderly reached.
3. The percentage of the target group reached.
4. The methods used by libraries to make their services accessible to adults and specific population groups of adults.

Blind and Physically Handicapped

I. Objectives

The objectives of the Service to the Blind and Physically Handicapped Project are:

- A. To provide a full range of reading materials -- talking books, cassette books, large print, and Braille -- for print-handicapped readers in South Carolina.
- B. To encourage greater use of services for the handicapped by a continuing program of publicity, promotion, and education.
- C. To make library service accessible to handicapped individuals at the local level wherever possible.
 - a. To develop browsing collections of talking books and cassette books in major metropolitan libraries.
 - b. To provide collections of large-print books for visually handicapped readers in institutions such as nursing homes.
 - c. To encourage participation by handicapped readers in established library programs at the local level such as summer reading program.
- D. To provide library equipment to improve library service.
- E. To coordinate library services for the handicapped with programs of other agencies and organizations serving the handicapped.
- F. Specific objectives for FY 94 are:
 - a. To register 1,000 new readers.
 - b. To continue to develop collections to meet needs of readership.
 - c. To increase telephone contact between reader advisors and patrons by staff initiated calls and use of In-WATS service.
 - d. To provide one day service on circulation of materials.
 - e. To maintain inventory control over and provide maintenance for Library of Congress audio equipment.
 - f. To continue to maintain and enhance the volunteer program.
 - g. To maintain Advisory Council for handicapped services.
 - h. To make presentations to public and state institutional libraries on services available from DBPH, as well as other groups.
 - i. To promote service using State Library produced applications and posters, NLS produced materials, and exhibiting and speaking at appropriate forums.

South Carolina State Library
Fiscal Year 1994
Title I, Project IV.
Blind and Physically Handicapped

- j. To investigate technology available to enhance user services such as computer produced braille.

II. Relationship To Long-Range Program

The Blind and Physically Handicapped Project supports Objective 2 of Goal III:

"To provide special programs of library service for visually and physically handicapped individuals."

III. Activities To Be Used To Meet Objectives And Needs

1. The South Carolina State Library, Department for the Blind and Physically Handicapped has been designated a regional library for the blind and physically handicapped by the Library of Congress. As such, the library will:
 - a. Acquire, process, and make available 3,000 new talking books, 19,000 new cassette books, and 600 large print books.
 - b. Maintain collection of 48,000 talking books, 180,000 cassette books, 10,500 large print books, and 55 periodical subscriptions.
 - c. Issue and maintain inventory control according to NLS guidelines of equipment necessary to play recorded books.
 - d. Circulate 200,000 books and periodicals to 8,000 readers.
 - e. Utilize the volunteer program to include the recording of materials of local interest.
 - f. Provide catalogs and special bibliographies of materials available so readers can select books to read.
 - g. Provide advisory service for readers who are unable to select for themselves or who would rather have the library select for them.
 - h. Provide assistance to print handicapped students in the location of textbooks in special media.
 - i. Contract with North Carolina State Library for braille service.
2. Provide browsing collections of talking books in libraries of Anderson, Charleston, Florence, Greenville, and Spartanburg Counties.
3. To reach potential readers, a public relations campaign is conducted year-round, consisting of radio and TV public service spots and talk show appearances, newspaper articles, communication with public libraries, health

South Carolina State Library
Fiscal Year 1994
Title I, Project IV.
Blind and Physically Handicapped

groups, and groups interested in the handicapped.

4. To maintain communications between the library and its readers, 24 hour In-WATS telephone service, a quarterly large print and tape newsletter, and individual correspondence are used.
5. The State Library will continue to sponsor workshops for public and state institutional libraries in library services to the handicapped in FY 94, as well as presentations to other groups interested in serving the handicapped.
6. The State Library's Advisory Council composed of users of this service and service providers will continue.

IV. Key Libraries And Other Libraries Involved

South Carolina State Library, Department for the Blind and Physically Handicapped
Library of Congress, National Library Service for the Blind and Physically Handicapped
North Carolina State Library, Library for the Blind and Physically Handicapped
South Carolina Commission for the Blind
South Carolina Commission on Aging
South Carolina Department of Vocational Rehabilitation
South Carolina Developmental Disabilities Council
South Carolina Governor's State Agency Volunteer Program
South Carolina State Department of Education, Office of Programs for the Handicapped
South Carolina public libraries
South Carolina School for the Deaf and the Blind
Various agencies, state and local, and other groups that work with the handicapped, as well as individual volunteers

V. Method Of Evaluation

1. This project will be monitored by the Director, Library Services for the Blind and Physically Handicapped, and consultants from Library of Congress, National Library Service for the Blind and Physically Handicapped. This project provides for the operation of a regional library for the blind and physically handicapped.

To evaluate the effectiveness of this service the library will use two tools:

Revised Standards and Guidelines of Service for the Library of Congress Network of Libraries for the Blind and Physically Handicapped. American Library Association, 1984. As time and funds permit, the library will attempt to meet the standards it does not meet.

Guidelines for Regional Libraries. Library of Congress, National Library Service for the Blind and Physically Handicapped, 1977, as supplemented by Network Bulletins.

South Carolina State Library
Fiscal Year 1994
Title I, Project IV.
Blind and Physically Handicapped

2. To judge effectiveness of publicity programs, the following will be used:
 - a. Number of new readers registered.
 - b. Response from radio and newspaper coverage, such as inquiries about service and requests for applications.
 - c. Requests for speaking engagements.
3. The collection will be constantly evaluated to provide materials suitable for South Carolina readers. To do this will involve:
 - a. Selecting sufficient copies of Library of Congress produced books in areas that have proven to be popular, such as religion.
 - b. Weeding collections on a continuous basis to make room for more popular items.
 - c. Searching the on-line or CD-ROM version of the union catalog of the Library of Congress, National Library Service for the Blind and Physically Handicapped for location of titles possibly produced by other regional libraries that are requested by readers or that are needed to balance collection.
 - d. Recording of local materials.
 - e. Purchasing commercial material that would add balance to the collection.
4. To receive input from readers as to quality of service, the quarterly newsletter will be used to seek responses on what the readers want from their library. The Advisory Council will be polled for suggestions also.

5. PROVIDE AN ABSTRACT OF THE PROJECT AND HOW THE PROJECT RELATES TO THE LONG-RANGE PROGRAM. (SECS. 103 OR 303)

South Carolina State Library
Fiscal Year 1994
Title I, Project V.
Institutional Library Services

I. Objectives

The objectives of the Institutional Library Services Project are:

- A. To establish and administer effective standards governing personnel, materials, equipment, space, and physical facilities for institutional library service.
- B. To stimulate recognition of library service as an integral part of education and rehabilitation by state institution administrators and personnel and to elicit institutional financial support for library service.
- C. To provide technical professional advice and assistance on a continuing, consistent basis.
- D. To recruit and train qualified personnel and to provide continuing education programs geared to the needs of library administrators and staff.
- E. To develop collections adequate in size, scope, and appropriateness to meet the needs of patients and residents.
- F. To provide reference services and supplementary resources for professional personnel.
- G. To support programs to combat the problem of illiteracy.
- H. To support programs of bibliotherapy for emotionally and educationally handicapped individuals.
- I. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The Institutional Library Services Project supports Objective 1 of Goal III:

"To promote the establishment and development of institutional library service capable of supporting treatment, education, and rehabilitation programs in state health and correctional institutions."

III. Activities To Be Used To Meet Objectives And Needs

This project enables the State Library to support the work of the Institutional Library Consultant who will:

- A. Plan, develop, and supervise programs for state institutional libraries. The institutional consultant will maintain contact with state institutions through site visits, correspondence, telephone calls and other means of communication. He will meet with institutional administrative staff members as needed.

South Carolina State Library
Fiscal Year 1994
Title I, Project V.
Institutional Library Services

- B. Assist with the implementation of LSCA grant projects involving service to institutions.
- C. Continue to provide technical assistance in the development of state standards for institutional library service.
- D. Continue to provide guidance in the development of bibliotherapy and literacy projects.
- E. Encourage institutions to increase local funds for materials by 10% and to increase usage of the State Library's interlibrary loan and film service by 5% each.

IV. Key Libraries And Other Libraries Involved

In order to qualify for a Project V grant, an institutional library must receive income from tax sources which is not less than the income received from those same tax sources in the second preceding year, employ a professionally trained librarian, and receive the majority of its support from state tax sources. The South Carolina State Library will award grants to qualifying libraries on a competitive basis.

NOTE: Institutions which do not qualify for the grant program or choose not to participate are still eligible for other services from the State Library.

V. Method Of Evaluation

Progress of local grant projects will be observed by the Institutional Consultant by means of communication with local librarians. Grant recipients will help evaluate the programs in which they participate by submitting regular reports on expenditures and annual self-evaluations.

The following criteria will be used to measure the effectiveness of all institutional library programs.

1. The collection is of adequate size and meets the needs of residents of the institution.
2. Library services are available to all residents on a reasonable regular and convenient schedule.
3. Staff rendering library services shall have qualifications appropriate to their responsibilities and duties.
4. There is continued evidence of institution support of library services within the institution, especially materials budgets.

South Carolina State Library
Fiscal Year 1994
Title I, Project V.
Institutional Library Services

5. The development and use of bibliotherapy and other therapy programs, when appropriate.
6. The Institutional Library Consultant shall make periodic (regularly scheduled) visits to institutional libraries which shall include:
 - a. General observations of operations and activities.
 - b. Inspection of collections.
 - c. Conferences with library staff, administrator responsible for the library within the institution, and other institution staff members.
 - d. Instruction and/or demonstration of recommended practices and procedures.

South Carolina State Library
Fiscal Year 1994
Title II, Project I.
Public Library Construction

I. Objectives

The purpose of this project is to provide public library facilities adequate in space, design, and access to meet the needs of the community. To this end the project will insure wise and economical use of federal and local funds in the construction of library facilities; will assure that new facilities provide the maximum in function, efficiency and economy of maintenance; and will make construction funds available to the greatest number of communities for the wisest and best development of library facilities to reach the greatest number of people. Construction projects eligible for Title II grants are:

- A. Construction of a new county or regional headquarters building, the enlarging of existing county or regional headquarters buildings, or the conversion of an existing building into a public library facility.
- B. Construction or enlargement of branch library buildings serving a population area of 20,000 or more in county or regional systems or the conversion of an existing building into a branch library facility. (The plan of construction and the location of the branch must be based upon a carefully developed plan for the location and development of branches to serve the entire area of the system.)
- C. Construction or enlargement of branch library buildings serving a population area of 5,000 - 20,000 in county or regional systems or the conversion of an existing building into a branch library facility. (The plan of construction and the location of the branch must be based upon a carefully developed plan for the location and development of branches to serve the entire area of the system.)
- D. Renovation of an existing county or regional headquarters building or branch library building to make it accessible to the physically handicapped as required in American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped.
- E. Renovation of an existing county or regional headquarters building or branch library building for energy conservation.

II. Relationship To Long-Range Program

The project supports Objective 4 of Goal II of the Long-Range Program:

"To encourage provision of public library facilities adequate in space, design, and access to meet the needs of the community."

III. Activities To Be Used To Meet Objectives And Needs

The allocation of funds for construction projects will be as follows:

Branch libraries (permanent or temporary) serving populations of 5,000 - 20,000 in systems meeting requirements for State Aid, \$75,000 or 50 percent of the cost of the total project, whichever is the smaller.

South Carolina State Library
Fiscal Year 1994
Title II, Project I.
Public Library Construction

Branch libraries (permanent or temporary) serving populations over 20,000 in systems meeting requirements for State Aid, \$100,000 or 50 percent of the cost of the total project, whichever is the smaller.

The headquarters of county and regional systems meeting requirements for State Aid and serving under 50,000, \$150,000 or 50 percent of the total cost of the construction project, whichever is the smaller.

The headquarters of county and regional systems serving 50,000 to 100,000 and meeting State Aid requirements, \$200,000 or 50 percent of the total cost of the project, whichever is the smaller.

The headquarters of county and regional systems serving over 100,000 and meeting State Aid requirements, \$250,000 or 50 percent of the total cost of the project, whichever is the smaller.

Renovation of headquarters or branch library buildings for compliance with the Americans with Disabilities Act and for energy conservation.

The amount of each grant will be determined individually on the basis of the nature and extent of the renovation required and on the other funding available. In no case shall a grant exceed 50 percent of the cost of renovations specifically required to assure access and usability for the handicapped, and energy efficiency.

The State Library will not use Title II funds for its administration of this project. All funds will be available for grants.

In the event the number of approvable construction projects received is not sufficient to utilize all available funds, the State Library reserves the right to allocate additional funds within the limits of the federal/state matching ratio.

Construction must begin within six months of the approval of the Title II application or risk forfeiture of grant.

IV. Key Libraries And Other Libraries Involved

The key libraries involved will be the SC State Library and eligible public libraries throughout the state.

South Carolina State Library
Fiscal Year 1994
Title II, Project I.
Public Library Construction

V. Method Of Evaluation

The State Library will evaluate each application to determine eligibility. Once a grant is approved the State Library will provide technical assistance and review before construction begins. During construction the State Library will work with the libraries to ensure that contractor(s) meet schedules, follow applicable regulations, and construct the building in accordance with specifications approved by the State Library. Periodic site visits will be made to verify the above. After the building is completed the State Library will make a final inspection of the building. An audit of the owner's accounts and records of both local and federal funds will be made as soon as practical after construction has been completed. This audit is to assure that federal funds expended on the project are equal to the applicable federal share of the actual allowable costs incurred by the library in constructing and equipping the project as approved and in accordance with applicable laws, regulations, and policies established for the program.

Overall the project will be evaluated on the number of new library buildings constructed in areas which previously had no public library facility or which had an inadequate facility. Standards to be used in the evaluation of adequacy of the library facility are found in Pamphlet No. 11, "Small Libraries Publication," Planning the Small Public Library Building (Library Administration and Management Division, American Library Association, 1985) and in Wheeler and Goldhor's Practical Administration of Public Libraries, by Joseph L. Wheeler and Herbert Goldhor, revised by Carlton Rochell, (Harper, 1981), p. 464.

South Carolina State Library
Fiscal Year 1994
Title III, Project I
South Carolina Library Network

I. Objectives

The objectives of the South Carolina Library Network Project are:

- A. To provide better service to South Carolinians by improving access to library resources of the state, region, and nation.
- B. To facilitate the sharing of South Carolina library resources by means of a rapid communication system for the location of information and materials.
- C. To develop and service a statewide library and information network, utilizing computer and telecommunications technology, capable of delivering products and services to all types of libraries in South Carolina.
- D. To strengthen the service of the State Library so that it may adequately serve as a resource for all libraries in the state.
- E. To provide access to the Educational Resources Information Center (ERIC) document collection, DIALOG, BRS, GPO, and other databases.
- F. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The project supports Goal IV of the Long-Range Program:

"To encourage and develop resource sharing by all libraries through participation in the South Carolina Library Network and other cooperative activities."

III. Activities To Be Used To Meet Objectives and Needs

The State Library operates the South Carolina Library Network. The central component is the State Library's integrated online system, which currently includes public access catalog, circulation, electronic bulletin board, on-line library directory, audiovisual booking, and interlibrary loan. During FY 94 the State Library plans a major upgrade of the hardware supporting SCLN operations. This system provides local libraries access to State Library materials. The system is capable of linking other bibliographic databases in the state. At present time, all public libraries, most academic and technical college libraries, and some institutional, special, and school libraries have access to the South Carolina Library Network. This project will involve the following activities which are designed to facilitate the expansion and operation of the SCLN:

- A. Communications - to promote cooperation and to facilitate interlibrary loans
 - 1. An electronic bulletin board service (EBBS) will continue as a regular feature of the South Carolina Library Network. The purpose of EBBS is to increase communication among the South Carolina library community. Eventually EBBS may be expanded to a full-scale electronic mail service.

South Carolina State Library
Fiscal Year 1994
Title III, Project I
South Carolina Library Network

2. An on-line library directory will continue to serve as an up-to-date service for information on South Carolina libraries. The directory includes the names of library directors, the persons responsible for interlibrary loan, and telefacsimile directory information.
3. News for South Carolina Libraries, a bimonthly newsletter, is published to foster communication among all public, college, university, institutional, school, and special libraries within the state. A monthly listing of recent acquisitions of the State Library, New Resources will be published to encourage use of the materials listed.
4. The State Library will promote the South Carolina Library Network, as well as use of libraries in general, which should lead to increased usage of the SCLN.

B. Bibliographic Access - to identify and locate library resources

1. South Carolina Library Network - The State Library's holdings are available by means of an online catalog. Another component is the entire GPO bibliographic database which is used to identify federal documents. Libraries now have full searching capabilities by author, title, or subject. Requests for materials can be placed using the electronic mail component of the system. In FY 94, the addition of other components of the network such as acquisitions and serials union listing will be implemented.
2. Machine assisted reference service - The State Library will supplement its reference service by the use of online computerized bibliographic services through DIALOG, BRS, Wilsonline, Infotrac, VU/TEXT, and possibly other databases. CD-ROM information sources will also be acquired as appropriate.
3. The State Library will continue to operate the South Carolina Library Database as a component of the South Carolina Library Network based on the OCLC Group Access Capability (GAC) which now has 30 members. In addition, there are 52 South Carolina libraries which participate as full SOLINET members. Thus, a total of 82 South Carolina libraries are now participants in the South Carolina Library Database. This project will be expanded with additional selected users. The State Library will continue to encourage use of SoLine, sponsored by SOLINET for cooperation between state GACs in the southeast.

C. Interlibrary Loan - to supplement and coordinate library resources

1. State Library staff give direct interlibrary loan service to all libraries which have access to the Network. In FY 94 the State Library will attempt to increase interlibrary loan circulation to all libraries by 5%. During FY 94 access will be extended to other academic, special, and institutional libraries which have not previously had access. At the present time, 10% of the high schools in the state are being served by the

South Carolina State Library
Fiscal Year 1994
Title III, Project I
South Carolina Library Network

Network. The State Library cannot increase the number of school libraries accessing SCLN because of lack of sufficient state funding.

2. The State Library is the communications center through which loans among different types of libraries are transmitted. In addition to interlibrary loan from its collection the State Library provides location services for all types of libraries in South Carolina.
3. The project enables the State Library to employ one Reference Librarian and a Library Technical Assistant to work in the Interlibrary Loan Department. Temporary staff will be employed as needed.
4. Network plans call for a statewide union list of serials. The South Carolina Union List of Serials contains the holdings of 50 libraries located across the state. These microfilm records are maintained by the USC School of Medicine Library. In FY 94 the Union List will be expanded to include the holdings of major libraries in the upper Savannah region of the state.

It is envisioned that the South Carolina Library Network will eventually provide the means for online access to the serials collections of the state. At some point in the future the State Library plans to test online dial access into the State Library's serials database with selected users.

IV. Key Libraries and Other Libraries Involved

The South Carolina State Library and the libraries of South Carolina.

V. Method of Evaluation

This project will be monitored by the Library Development staff with the oversight of the Deputy Director. The Director of Reader Services and Coordinator of Network Services will provide day-to-day management of this project. Interlibrary loan statistics will provide a major source for evaluation of this service. Success of the service will be measured in terms of:

- (1) the number of interlibrary loan transactions
- (2) the percentage of requests filled
- (3) the time required for filling patron requests
- (4) critique by librarians and patrons
- (5) number of new libraries which gained access to the Network
- (6) number of grant projects initiated

FY 1994 CARRYFORWARD FUNDS TO FY 1995	0			0

5. PROVIDE AN ABSTRACT OF THE PROJECT AND HOW THE PROJECT RELATES TO THE LONG-RANGE PROGRAM. (SECS. 103 OR 303)

I. Objectives

The objectives of the Planning for Cooperative Library Networks Project are:

- A. To provide better service to South Carolinians by improving access to library resources of the state, region, and nation.
- B. To plan and develop a statewide library and information network, utilizing computer and telecommunications technology, capable of delivering products and services to all types of libraries in South Carolina.
- C. To raise the level of reference and interlibrary loan service through in-service training for public service personnel in South Carolina libraries.
- D. To encourage cooperation among public, academic, institutional, school, special and other libraries of South Carolina.
- E. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The project supports Goal IV of the Long-Range Program:

"To encourage and develop resource sharing by all libraries through participation in the South Carolina Library Network and other cooperative activities."

III. Activities To Be Used To Meet Objectives And Needs

The State Library operates the South Carolina Library Network. The central component is the State Library's integrated on-line system, which currently includes public access catalog, circulation, electronic bulletin board, audiovisual booking, and interlibrary loan. This system provides local libraries access to State Library materials. The system is capable of linking other bibliographic databases in the state. At the present time, all public libraries, most academic and technical college libraries, and some institutional, special and school libraries have access to the South Carolina Library Network. This project will involve planning for further development of the Network and will also involve planning for other means of interlibrary cooperation.

- A. Planning - to encourage cooperative planning among all types of South Carolina libraries
 - 1. Investigation - The State Library will continue conferences and planning meetings to allow South Carolina librarians to discuss and investigate potential means of cooperation including resource sharing, networking, and technological applications. If necessary, study trips may be made to observe successful multi-type library cooperation in other states and to determine the possibility of replication in South Carolina.

South Carolina State Library
Fiscal Year 1994
Title III, Project II
Planning for Cooperative Library Networks

2. Consultation - When a need is indicated, the State Library will engage consultants to study the feasibility of various cooperative activities and to advise on the development of a coordinated plan of action. The State Library will continue to provide consulting services to libraries using the services of SOLINET, as well as the State Library staff.
 3. Demonstration - Where investigation and consultation indicate that a given activity or technology can substantially improve communications, streamline library procedures, facilitate delivery of service, or otherwise contribute to resource sharing and interlibrary cooperation, the State Library may offer a demonstration grant to aid in establishing a cooperative pilot project that crosses types of library lines. The objective would be to find ways to fill the information and library needs in the state, to show clearly how each party benefits from cooperation, and to show ways of maximizing the expenditure of state and federal funds.
- B. Continuing Education - To increase awareness of the benefits of cooperation; to demonstrate new developments in library technology, including automation, networking, and information retrieval; and to raise the level of reference and interlibrary loan service throughout the state. Intensive efforts will be made to increase the use of the South Carolina Library Network by regional workshops and field work. The Coordinator of Network Services will continue to train new staff and to review system capabilities with existing staff. State Library staff will also assist libraries to develop better understanding of how to better use local resources. The Documents Librarian will also visit documents depository sites.
- C. Database Development - To award grants to expedite building of a statewide database in anticipation of a future statewide library network. In the cases of public libraries Title I and Title III grants may be combined when appropriate.
- D. Communications - To expedite development of a future statewide library network by financially encouraging libraries to purchase telefacsimile equipment.

IV. Key Libraries And Other Libraries Involved

The South Carolina State Library and the libraries of South Carolina.

V. Method Of Evaluation

The total project will be monitored by the Library Development staff with the oversight of the Deputy Director. Many of the results of the project are "intangibles" - leading to improved communication and cooperation between all types of libraries. Specific accomplishments will be measured in terms of the number of libraries involved in planning and activities, the consensus reached concerning immediate and long-range goals, the number of continuing education opportunities offered by the State Library, and the number of projects and activities initiated.

South Carolina State Library
Fiscal Year 1994
Title III, Project III
Preservation

I. Objectives

The objectives of the Preservation Project are:

- A. To provide better service to South Carolinians by improving access to library resources of the state, region, and nation.
- B. To encourage cooperation among public, academic, institutional, school, special and other libraries of South Carolina.
- C. To work with the Palmetto Archives, Libraries, and Museum Council on Preservation (PALMCOP) in implementing a statewide plan for preservation of materials.
- D. To provide library equipment to improve library service.

II. Relationship To Long-Range Program

The project supports Goal IV of the Long-Range Program:

"To encourage and develop resource sharing by all libraries through participation in the South Carolina Library Network and other cooperative activities."

III. Activities To Be Used To Meet Objectives and Needs

South Carolina's libraries, archives, and museums face the same problem of disintegrating collections which are plaguing similar institutions across America. Many of the state's books and manuscripts are being consumed by the acids in their pages, by exposure to too much light, by improper handling, and by wide variations in the environmental conditions in which they are housed. Since no single agency in South Carolina is charged with responsibility in this area, the State Library has joined forces with other institutions sharing the same concerns to form the Palmetto Archives, Libraries, and Museum Council on Preservation (PALMCOP). PALMCOP acts primarily as a statewide educational organization. It serves its diverse membership by monitoring preservation needs, conducting workshops, and producing publications. This project will involve the following activities designed to coordinate preservation efforts in the state:

- A. To continue to work with PALMCOP in conducting workshops and training personnel in disaster preparedness and preservation techniques, such as proper handling of books and simple book repair. Emphasis will also be placed on the training of professionals as preservation consultants in order to enable them to conduct assessments of individual libraries, archives, and records centers throughout the state.
- B. The State Library will continue conferences and planning meetings to allow South Carolina librarians to discuss and investigate potential cooperative preservation programs. If necessary, study trips may be made to observe successful preservation programs in other states and to determine the possibility of replication in South Carolina.

South Carolina State Library
Fiscal Year 1994
Title III, Project III
Preservation

- C. The State Library will continue its preservation education initiative in conjunction with the Charleston Museum. The project is designed to help build grass roots support for preservation among the library profession and the public. Activities will include workshops, meetings, site surveys, and statewide preservation awareness activities.

IV. Key Libraries and Other Libraries Involved

The South Carolina State Library and the libraries of South Carolina.

V. Method of Evaluation

The total project will be monitored by the Library Development staff with the oversight of the Deputy Director. Many of the results of the project are "intangibles" - leading to improved communication and cooperation between all types of libraries. Specific accomplishments will be measured in terms of the number of libraries involved in preservation planning and activities, the consensus reached concerning immediate and long-range goals, the number of preservation-related workshops which are offered, and the development of demonstration projects for prototype activities.

Quantity - 175
Total Cost - \$392.00
Unit Cost - \$2.24
